We need a good canteen and have to build infrastructure for sports and recreational activities. As far as teaching quality is concerned, its surplus for an undergraduate with exception of lack of working force (faculties) in some of the departments.

Our Institute is a developing one. We do not have ample facilities as such for now. But I am sure in the coming years it is going to be one of the best because of the tremendous hard work that is being put in by all the staff. We look forward to that day.

The ward classes from the very beginning must focus on more generalised topics at first..such as examination of ulcers in one class,examination of abdominal lump in one class,examination of a swelling....instead of focusing on a particular diagnosed case ...this can expose the student to a wide variety of differential diagnoses for a given presentation.Also more emphasis must be laid on case summary,not just plain history.

Boys hostel hopeless even though there are solar panels they are not in function , and no matter is taken seriously by management regarding mess which trouble lot in daily life and just forget about sports and games why I don't know they have given option above ,please remove it- ,there is no ac in the college building even there is A.C in other esi college even though they are just permitted college and this college Nearly came to recognize time nothing we can see . Please look through it - this is behalf of every students in the college. Please bring some changes.
